Save Morongo Basin Schools!

Public call for transparency before school closures

Morongo Basin families depend on strong, accessible public schools. MUSD is discussing possible closure/consolidation of up to four elementary schools as early as Fall 2027.

Before any closure moves forward, families deserve the full picture: real site-by-site savings, transition costs, trans-portation impacts, staffing and program impacts, alternatives to closure, administrative reduction options, and a clear fiscal stabilization plan.

WHY THIS MATTERS

MUSD has been reviewing a large budget deficit and declining enrollment. The Enrollment Committee is expected to recommend which campuses may be consoli-dated and which surplus property or parcels may be sold or leased.

This affects the whole district: closing schools, receiving schools, staff, families, neighborhoods, local businesses, and property values.

- **Morongo Valley, Landers, Friendly Hills**, and **Palm Vista** have been discussed.
- Receiving schools may face larger classes, boundary changes, staffing shifts, and program changes.
- School closures can reshape communities for decades.

PUBLIC COMMENT FOCUS

Ask the district to pause any closure decision until the public receives:

- Actual projected savings and transition costs
- Transportation and receiving-school impacts
- Enrollment assumptions and facility data
- Alternatives to closure and administrative reductions
- A transparent timeline before any final vote

WHAT YOU CAN DO

- **Share this information.** Many people still do not know this process is underway.
- **Sign the petition** to Save Morongo Basin Schools.
- **Attend meetings** and submit public comment asking for transparency, alternatives, and full community im-pact review.
- **Contact the School Board and District Office.** Ask that school decisions prioritize long-term community impact, not only short-term budget solutions.
- **Volunteer.** Help track the legal process, documents, meetings, outreach, and public records.
